

# Community and Governance

---

## Governance

---

CNCF Governance bodies are divided into 3 sub parts

**1. Governing board:**

- Responsible for marketing
- Other business oversights
- Budget decisions

**2. Technical oversight committee (TOC):**

- Defining & Maintaining technical vision
- SIG are part of this

**3. End User Community (EUC):**

- Providing feedback from startups to improve ecosystem
- End user groups & Usergroups like CNCF Nashik

## Membership

---

- Platinum members
- Gold member
- Silver member
- End user members
- Academic & Non-profit members

## End user Technology Radar

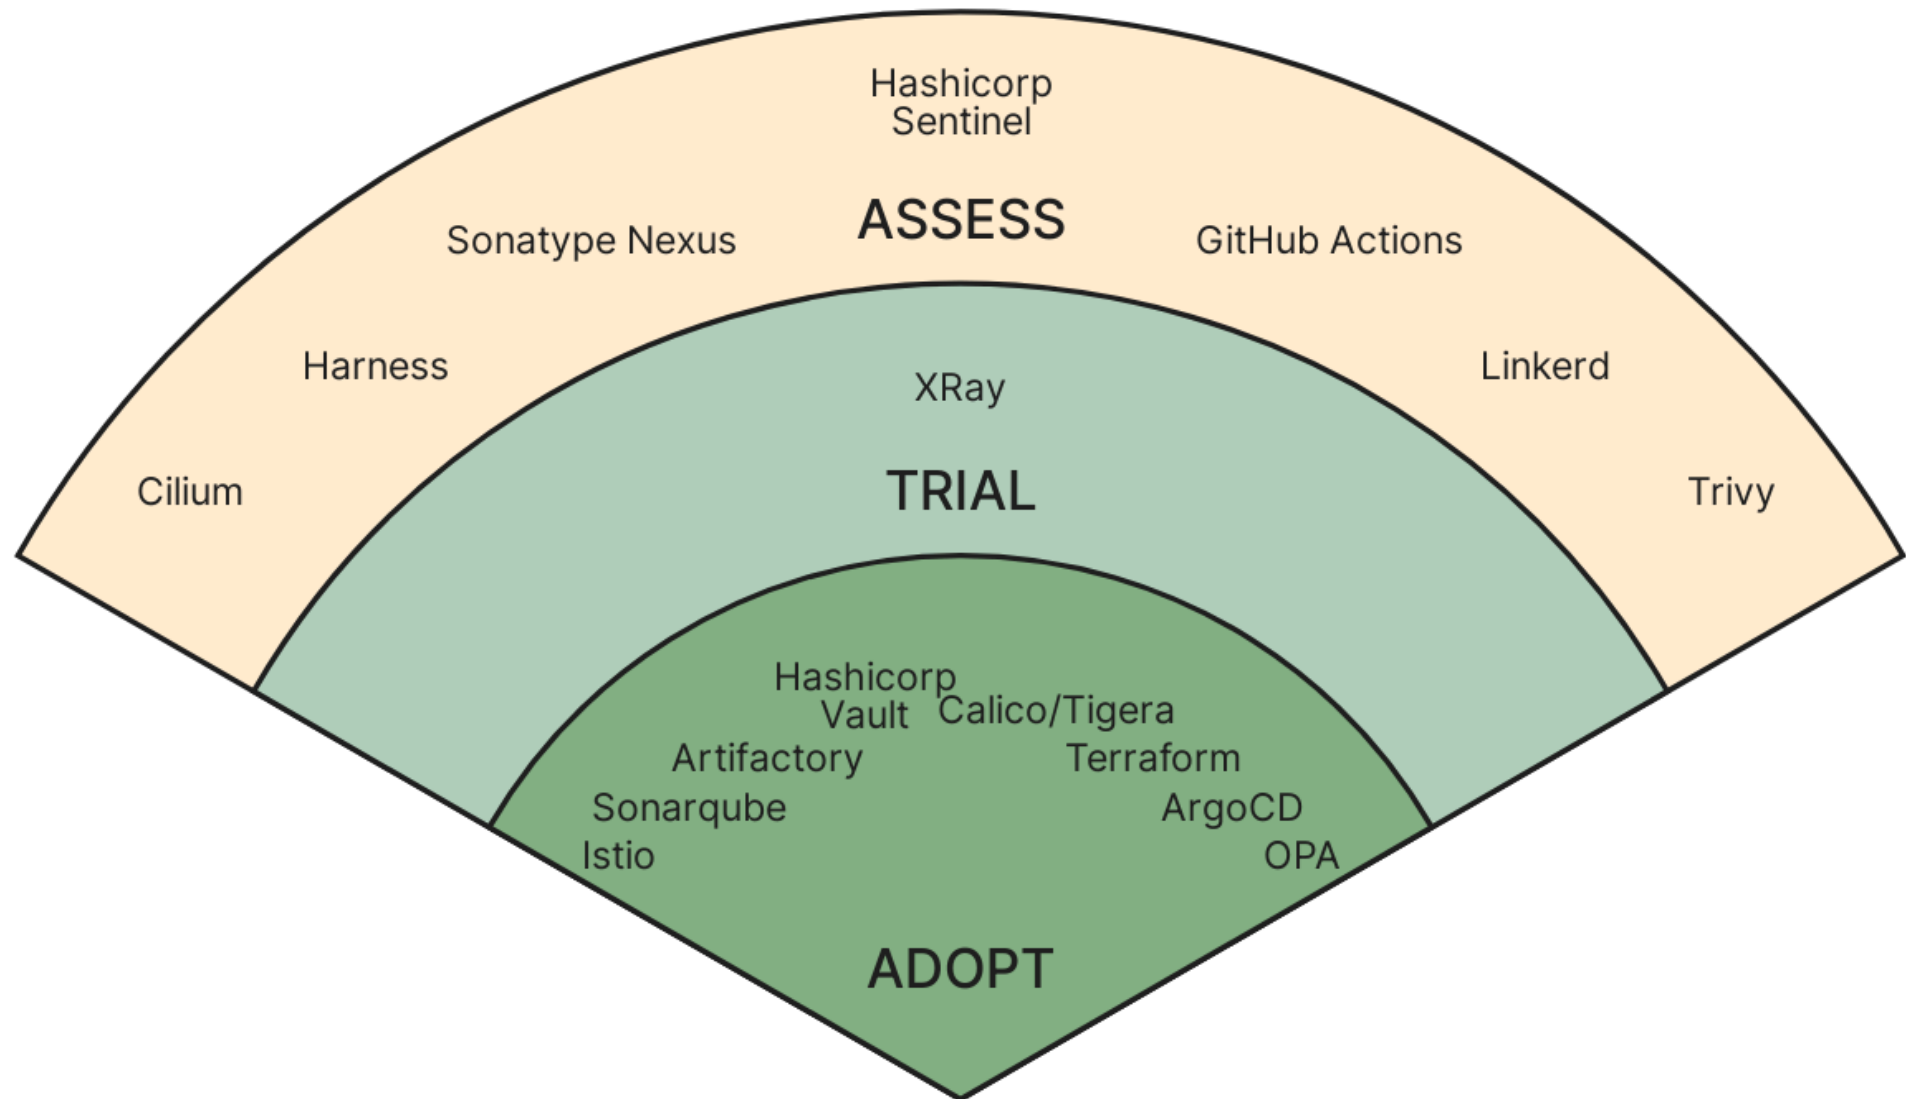

---

Get Feedback from community to find out recommended and preferred tool. Components are:

1. Assess (Tried it, looks promising)
2. Trial (Can have closer look)
3. Adopt (Clearly recommed it)

# CNCF Technology Radar

DevSecOps, September 2021

## CNCF Charter:

---

It's a big document to help define and guide CNCF. eg: Mission, org structure, policies etc.

## CNCF Values:

---

- faster is better than slow
- Open
- Fair
- Strong technical identity
- Clear boundries
- Scalable
- Platform agnostic

## CNCF Project:

---

Built by external tech companies. A CNCF project goes through some stages, the following diagram shows the steps in gradually increasing order.
